### DETAILED ACTION

This action is responsive to the Remarks filed April 28, 2005. Applicants' responded to the rejection of claims 1-19, 21-71, 73-99 and 102-110 under 35 USC 251 as being improper recapture of broaden claimed subject matter surrender in the applications (08/091,092 and 08/509,966) for the patent upon which the present reissue is based. Claims 20, 72, 100 and 101 have been cancelled; claims 1-19, 21-71, 73-99 and 102-110 are pending.

Applicants contend independent claims 89-93 should not be subject to the recapture rule since these claims are directed to method claims and since methods were not presented in the above applications which matured into patent 5,690,676. Therefore, the rejection of claims 89-93 under 35 USC 251 has been withdrawn.

The applicant further contend that the examiner fail to address the third element of *Pannu*, i.e. whether the claims were materially narrowed in other aspects to avoid the recapture rule in view of the above applications. It is argued that claims 19, 36, 52, 71, 77, 88, 94-98, 102, 108, 109 and 110 have been materially narrowed in other aspects relative to the claims of the '676 patent and therefore are not subject to the recapture rule.

Applicants presented several examples of the narrowing limitations for each of the rejected claims, i.e., claims 19 limits the anchor to "rigid body defining a generally transverse, circumferentially bounded opening through said body for receiving the suture" and limits the "rigid body" to having "a non-helicly extending exterior

Art Unit: 3731

enlargement [that] comprises a circumferential ridge." The example is exemplary of the limitations to claims 36, 52, 71, 77, 88, 94-98, 102, 108, 109 and 110.

The examiner respectfully traverse the arguments concerning non-showing of Pannu's third test for recapture, namely: whether, the reissued claims were materially narrowed in other aspects to avoid recapture rule. This analysis is clearly set forth in the office action mailed August 27, 2004, on page 3, paragraphs 1-3. Applicants' attention is directed to the third element of the general claim limitation recited on page 3 representing the claims in the '092 and '966 applications. This limitation is considered the surrender-generating limitation. Therefore the claims in the present application are broader in relation to this aspect. Although they are narrower in another aspect (claim 19 above), but it is unrelated to the surrender-generating limitation; therefore the recapture rule bars the claims.

#### ***Allowable Subject Matter***

Claims 89-93 are allowable over the art of record.

The examiner believes this rejection is proper and therefore made final.

#### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
